45T

Serie Steel

Cable Chains in Bright Zinc Plated Steel

Inner height (D) 182 mm
Double share link construction.
Triple-rivet fixing and standard large washer and nylon anti-friction disk to assure smooth and durable movement. Unscrewable Alu-draw frames (f) are standard mounted every link, Alu-drilled plates (TL) are mounted every second link with an Alu-draw frames every other link.
Separator systems available.
Also available in Stanlass Steel.

Technical characteristics

0,5 m/s
2 m/s ²

For higher requirements please consult our technical dept.

 Unassembled 	Part.no ST4500F1C

Length of chain (L) Half travel distance $(\frac{LS}{2})$ plus length of curve (M)

 $L = \frac{LS}{2} + M$

Machined Cross Frame

Machined cross frames (45LT) available on request for bending radius listed below. Custom solutions for machined cross frames realization, based on customer's and/or specific requirements.

LS Max un

of the cables and hoses contained per linear metre.

The red marking in the diagram area considers the difference of weight between various widths of chains assembled with aluminium draw plates every second pitch.

For applications with LS/2 and weights not included in the area of the diagram showing self-supporting capacity, verify the possible use of support rollers (see 2302.20).

Bright Zinc Plated Steel End Brackets The end brackets set, containing four steel plates screwed to the links

Self-Supporting Capacity Diagram
The maximum length of the self-supporting capacity (\$\frac{\ll S}{2}\$) in relationship to the weight allows the two ends of the chain to be attached to the equipment.
